16 May 1966

The Technical Representative of the Contracting Officer does not concur in full with the [REDACTED] proposal as stated in "Exhibit C" of the enclosed document. Specific issue is taken with the following items:

- (1) The increase in the number of man-hours assigned to the Image Analysis Center Manager [REDACTED] from 24 to 403. No such change in this level of effort is justified, and it is not approved.
- (2) The allocation of an additional Senior Photographic Engineer [REDACTED] to the task. This is an attempt to load the contract with high priced talent, and is not approved. [REDACTED] work has been satisfactory, and his salary rate is lower than that of [REDACTED] although higher than that of [REDACTED] (the individual for whom we originally contracted).
- (3) The decrease from 1451 to 572 in the number of man-hours assigned to the Senior Photo-Optical Engineer [REDACTED]. No such change in this level of effort is approved.

It is our understanding that under a time and materials contract, we are not responsible for changes in wage rates; as a consequence, it

is our further recommendation that no alteration in the originally negotiated Time and Materials rates be approved for the FY-1966 effort under this Contract. All other changes requested by the Contractor in the enclosed document are approved by the Technical Representative.
